Work Experience / Graphic Design

Movie Collage   Adobe Photoshop | Adobe illustrator |

- The project is about movie Avatar (2009) which contains many pictures from this film.
- The project is fully done in Adobe Photoshop with some of common tools.

Some of my past projects   HTML | CSS | SASS | Bootstrap | JavaScript

- In addition to graphic design, which I am studying now, I also had a little experience with the frontend direction, which I want to share with you here.
- The projects are made entirely by myself, mainly through html, css, sass, bootstrap and JavaScript, where I have presented several sites, among them my personal cv.
